

# Division

Division means sharing equally.

Example:

$$6 \div 2 = 3$$

(6 items shared by 2)

# Division

Practice:

$$4 \div 2 = \underline{\quad}$$

$$6 \div 3 = \underline{\quad}$$

$$8 \div 4 = \underline{\quad}$$

# Division

Real life sharing:  
8 chocolates shared by 4 kids.  
Each gets 2 chocolates.

# Division

Check division using multiplication:

$$2 \times 4 = 8$$

$$\text{So, } 8 \div 4 = 2$$
